

Accelerate your digital transformation and enhance your residents experience with digital permits and access technology.

RESIDENTIAL

WHAT IS SIPPI?

Managing parking and access on residential sites can be complicated and time-consuming.

Sippi provides a flexible end-to-end digital solution for parking and access control which will enhance your residents' experience, reduce your administration time and cost, and mitigate security risks.

FASTER

No more waiting for physical permits to arrive by post

FEWER FINES

No more charges due to lost or incorrectly displayed permits

GREENER

No more paper permits, plastic cards and key fobs

VALUABLE INSIGHTS

No permits misuse with valuable insights into how your car parks are used

Less fuss, more flow

HASSLE-FREE SOLUTION FOR PARKING PERMITS

Sippi provides a simple, fast and greener solution for managing parking permits on residential sites.

DIGITAL ACCESS TO CONTROLLED AREAS

Sippi will save you time, administration costs and avoid the security risk of lost fobs by managing access to controlled areas including gated car parks, electrical boxes, bike cages, pedestrian gates and bin/storage areas.
